Introduction

Wonder Intercultural School was born out of a need for a genuine alternative to conventional schooling. We wanted a place where students are nurtured and celebrated for all their Wonder-ful variations and differences but brought together under our shared vision for **fairness, honesty, community, sustainability and a desire to achieve academically.** We wanted a place where academic success comes in a variety of flavours and achievements were as diverse as the community we represent.

Vision

Creating a generation full of **curiosity, critical thinking, and global insight** through holistic and exploration-based learning.

Mission

- Provide academic education oriented toward future needs by integrating a **research-based curriculum** with local values.
- Create a fun, inclusive, and supportive learning environment that fosters **personal growth** in every child.
- Integrate local culture with a global perspective to **nurture tolerance and appreciation for diversity.**

Curriculum

We run on a 4-term, 2-semester system from August to July. Our curriculum is thematic and inquiry-based, emphasising self-discipline, independence, freedom that has responsibility attached, and tolerance and appreciation of all cultures and traditions.

Thematic

**inquiry-
led**

**project
based
and
assessed**

We believe children benefit most from education and care when parents and settings work together. We aim to support parents as their children's first and most important educators by involving them in their children's education.

Grades

Early Years Programme (EYP)

At Wonder Intercultural School, EY includes Playgroup and TK. It provides a **thematic approach** to learning where our students' social, emotional and intellectual abilities are fostered in a safe, welcoming and beautiful environment and **Reggio Emilia-inspired** classrooms. Our learning programmes use an active, hands-on and creative approach, where creativity and inquiry lead our young students to explore their world through focused and free learning experiences

Grades

Primary

The Primary School includes classes 1-6 and runs a thematic approach to learning, stimulating enquiry and culminating in a **project-based assessment** designed to let your child shine in their achievements for each topic. English and Maths are covered by short daily sessions covering all the necessary skills benchmarked against Australian and UK Curricula. **The National Curriculum Merdeka** of Indonesia for native Bahasa Indonesia and BIPA for International students to learn Bahasa Indonesia three times a week. We are able to provide grade completion certificates, transcript and Indonesian IJAZAH

Our Learner Profile

Curious

We stay curious and keep learning, both on our own and with others. We're excited about learning and keep that enthusiasm going throughout our lives.

Our Learner Profile

Thoughtful

We dive into different subjects and try to understand big ideas that matter locally and globally. We use both critical and creative thinking to tackle complex problems and make thoughtful, ethical choices.

Communicative

We're confident and creative when we express ourselves, whether it's in different languages or other ways. We work well with others, listening to different viewpoints and respecting everyone's ideas.

Responsible

We act with honesty, fairness, and respect for everyone's rights. We own up to our actions and their impact. Tolerant
We appreciate our own cultures and those of others, and we're open to different perspectives and ready to grow from them.

Empathetic

We show empathy and kindness, and we're dedicated to making a positive difference in the world.

Fair

We balance our intellectual, physical, and emotional needs to stay well, and we understand how connected we are to others and the world around us.

Motivated

We reflect on our experiences and ideas, and work to understand our strengths and weaknesses to support our personal growth.

Meet our team

Dora Parr

Lead Teacher, BA (hons), MA, TESOL, PGCE.

15 years experience in teaching, firmly devoted to inquiry and project-based learning. Curriculum designer, International Baccalaureate, PYP, trained.

Fluent Indonesian speaker and lover of all things 'nerdy' (archaeology, ancient history, fossils, dinosaurs, birds, primates and anything Wallacea)

Rosana Servulo De Lima

Early Years Teacher BA(hons), CELTA, AdDP.

International Baccalaureate trained (PYP) in inquiry based learning, English teacher, philosophy graduate and well versed in the Australian ACARA curriculum.

Committed to play-based learning, fostering inquiry minds and child-centered approaches.

Ms Ocha

Masters Degree in Linguistics

Is our Bahasa Indonesia teacher with a Masters Degree in Linguistics, near perfect English and currently in the process of working with The Principal to integrate the Indonesian Kurikulum Merdeka and a meaningful and integrated way.

Committed to play-based learning, fostering inquiry minds and child-centered approaches.

Ms Adni

Bachelor's Degree in Mathematics

Our Maths teacher, graduated with a Bachelor's Degree in Mathematics (Mathematics and Science Faculty) from The University of Mataram. She is originally from Selong in East Lombok and is an amazing crafts person leading the Early Years for crafts and activities, bringing joy and wonder to the younger students.

Ms Via

Teaching Assistant

Ms. Via is a dedicated and passionate teaching assistant who brings warmth and creativity to every classroom she steps into. Her commitment to nurturing young minds and her natural ability to connect with children make her an invaluable part of the team.

EXPLORE THE ENROLLMENT

1

Book a trial day

A trial day at school is available as an opportunity to experience our approach in real daily school life. It is offered two days after parents confirm the date of arrival.

2

Admission process

Completing the enrollment form and submitting the required documents.

3

Onboarding

introduces new students to the school's environment, policies, and values. It includes a campus tour, meeting teachers and classmates, and providing essential resources to ensure a smooth transition and a welcoming start.

**"Intelligence plus character—
that is the goal of true
education."**

Martin Luther King Jr.
